To,
Whomsoever it may concern.

This is to certify that Ms. Vidisha Kamble, 13 years old female child, D/O Shri Rajani Kamble, residing at Aurangabad, Maharashtra, has been diagnosed to be having major congenital heart defect in the form of large ventricular septal defect and severe pulmonary stenosis (tetralogy of Fallot equivalent) along with aneurysmal outpouching involving the main pulmonary artery. The child will need early surgical correction of the problem (Intracardiac repair) along with excision of the aneurysm in order to survive and lead a normal life. It is a Major open heart surgery carrying 98-99% success rate in the present circumstances.

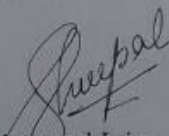

The approximate cost of surgery and the postoperative treatment for this operation is around Rs. 2,75,000 for a maximum of 15 days of hospital stay excluding the usage of blood products and also usage of prosthetic materials – that may come around 25,000 if found necessary (Total Rs. 3,00,000/-).

The child's parents have financial hurdles. Hence I would request you to kindly help the parents in arranging the funds required for her surgery.

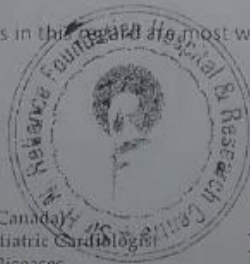

The surgery will be done by Dr. Shivaprakash at Sir H N Reliance Foundation Hospital and needs to be within in the next few weeks for lasting benefit to the child.

The D/D should be drawn in favour of "Sir H.N.Hospital Trust" Payable at Mumbai.

Any queries/ clarifications in this regard most welcome.
